

IPS Video Solutions in WSH Emergency and Service Centre

The Wach- & Schliessbetriebe Hohentwiel GmbH (WSH), located in Singen, operates an emergency and service centre for remote surveillance of various types of alarm messages from numerous customer sites throughout Germany. For a fast and easy alarm verification, video surveillance plays an increasingly important role. To achieve this, WSH relies upon IPS VideoManager and IPS VideoAnalytics. The distributed customer sites are equipped with IPS VideoManager NVRs as well as various IPS VideoAnalytics upon request and connected to the IPS VideoManager MSM located in the WSH emergency and service centre. This enables early detection of threats and efficient alarm management.

IPS Intelligent Video Analytics

IPS Intelligent Video Analytics, founded in 1965, is a German manufacturer of sophisticated video products. Since the acquisition by Securiton GmbH in 2006, IPS has been managed as an independent business unit. In recent years, IPS has been developing its latest generation of IP-based software solutions for video analytics and management. The current IPS products are successfully installed in numerous applications in Germany and in the rest of Europe by Securiton GmbH and selected partners.
